SOLUTIONS FOR THE NORTH

A COLLECTIVE OF NORTHERN-FOCUSED
INUIT-OWNED COMPANIES
PRESENTED BY TITUS ALLOOLOO

A COLLECTIVE OF NORTHERN-FOCUSED INUIT-OWNED COMPANIES

I'd like to take this opportunity to introduce myself, and to present a collection of companies – collectively known as Ammaruq Services Ltd. – that have considerable knowledge, experience, and capability in the design, development, and sustainment of infrastructure in Canada's North. In line with the Government of Canada's intent to re-invest in infrastructure and materials to modernize the Canadian elements of the North American Aerospace Defense Command (NORAD), Ammaruq Services Ltd. is your Northern partner of choice.

As a former territorial level politician from Nunavut, Canada, I have served as a member and Cabinet Minister of the Northwest Territories Legislature through two terms from 1987 until 1995, and Minister of Renewable Resources, Education, Transportation, Forestry, and Fisheries. I am a defender of the North. I have served as a Patrol Commander in the Canadian Rangers and have trained numerous US and Canadian military units and personnel in the rigours of Arctic Survival and Arctic operations.

For NORAD Modernization, Ammaruq Services Ltd. is your “one stop shop” partner to comply with the Government of Canada's mandatory target to have at least five percent of the total value of contracts awarded to Indigenous businesses. For Ammaruq Services Ltd., I have hand-picked a group of capable, confident, and competitive companies that have my trust. All are closely connected to the Inuit shareholders across Nunavut. Each member company is Nunavut Tunngavik Incorporated (NTI) designated, 100% Inuit owned, and comfortably familiar with the unique geographical, cultural, economic, logistical, and political nuances of working in the North.

Detailed information on each of these Ammaruq Services Ltd. member companies is included in the pages below. They span expertise in accommodations, transportation, installation, asset supply, infrastructure, equipment, security, mechanical, electrical, plumbing, and more.

Thank you for the opportunity to provide this presentation – I'd be more than happy to discuss this entire package. In the interim, please do not hesitate to contact me for further information.

Sincerely,

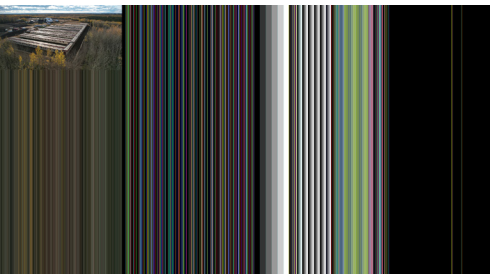

TITUS ALLOOLOO

Complete Security & Risk Solutions

Scarlet Security & Risk Group (SSRG) provides comprehensive specialized security and risk mitigation services to verticals including mining, oil and gas, aviation, commercial properties, healthcare, and government. Our mission is to help clients operate worry-free, knowing operational and enterprise risks are addressed and their reputation protected.

With our roots in the far north and operating under Twilite Security since 1990 and under Scarlet Security since 2008, SSRG has expanded in size, region and service offerings through organic growth and acquisitions.

We are pleased to confirm our three Inuit corporation partners in the Kitikmeot, Kivalliq and Baffin regions of Nunavut. Our three partners have established independent entities that are 100% Inuit-owned and have reached an agreement with SSRG to act as the operating partner providing financing, capacity, expertise and resources. All three partners are registered under the NNI and NTI designations:

- Scarlet Kitikmeot Ltd. - DESIGNATION # 1113
- Scarlet Kivalliq - DESIGNATION # 1098
- Scarlet Baffin - DESIGNATION # 1097

To fully meet our customers' growing and evolving security needs, SSRG has made strategic investments to offer a full suite of risk management, security, and technology services. We are proud of our strategic growth with the major acquisitions in the Risk and Systems space, which sets us apart in the Canadian security landscape.

CSS Industrial Nunavut Ltd. (“CSS Nunavut”) provides field services to the industrial, energy, and aerospace industries in Nunavut. CSS Nunavut is an “Inuit Firm”, recorded in Nunavut Tunngavik Incorporated (“NTI”) registry and compliant with the Nunavummi Nangminiqaqtunik Ikajuuti (“NNI”) Policy.

CSS Nunavut’s majority shareholder is private company based in the Territory of Nunavut, whose principals are active participants, contributors, and stakeholders of Nunavut’s economic and social initiatives and affairs.

CSS Nunavut offers the following maintenance field services:

- ✓ Various industrial work in hard to access areas via rope access
- ✓ Inspections
- ✓ Fireproofing, Coating
- ✓ Concrete rehabilitation/restoration (shotcreting)
- ✓ NDT / corrosion testing and monitoring
- ✓ Wind, Solar: development/construction/maintenance
- ✓ Telecommunication tower maintenance
- ✓ Lightning Protection: towers, buildings
- ✓ Engineering support: fit-for-purpose engineering services and solutions

CSS Nunavut ensures consistent high quality execution by drawing on the experience and resources of CSS Group affiliates. We work safely, on time and on budget.

Example: an affiliate of CSS Nunavut, Canadian Space Services Ltd., is an experienced field service provider with over 40 years of excellent, dedicated, and reliable annual services in the Canadian Arctic to private corporations as well as Canadian government and military agencies, including, Department of National Defence, NAV Canada, Environment Canada Raytheon, Lockheed Martin Nasittuq Corporations, and others.

Providing Best in Class Medical Solutions in the most remote places on earth.

Eastern Arctic Medical Solutions Inc (EAMS) is 100% Inuit-owned and is headquartered in Pond Inlet, Nunavut and is listed on both Nunavut Tunngavik Incorporated's (NTI) Inuit Firm Database a 100% Inuit-owned firm (as defined in the NNI Policy) and is endorsed as a Nunavut Business as defined in the Government of Nunavut's NNI Policy.

EAMS was established in 2011 as a joint venture between 5294 Nunavut Ltd in strategic partnership with our exclusive operator - Advanced Medical Solutions Inc.(AMS) to provide the service delivery, technical experience, expertise and infrastructure.

We have extensive experience in remote prehospital care. Our leading edge medical staff are experienced, reliable, resourceful and innovative. With years of experience in the industry, we know that these attributes are essential to operating any business. Add the climate and the remoteness, and we not only help you succeed, we help you excel.

The combination of Territorial Management provided by EAMS, with the vast Northern experience from the AMS team for over 30 years in Nunavut and the NWT along with the technical expertise and infrastructure including utilizing enhanced clinical training tools provide the best possible integrated healthcare service delivery, while building the capacity to all Nunavummiut.

WHY CHOSE EASTERN ARCTIC MEDICAL SOLUTIONS:

The **Vision Statement** for **Advanced Medical Solutions Inc. (AMS)** says it all – “To provide innovative and comprehensive medical solutions to our patients, the communities we serve and our clients – exceeding expectations for service and value.” And our **Mission Statement:** Patient Focused Healthcare is our first priority mandated and adhered to in our service delivery. Our team demonstrates daily commitment and dedication to the Continuity of Care needed to guarantee this statement.

SERVICES

As part of our innovative and comprehensive medical solutions, **EAMS & AMS** has 5 distinct business units:

- Ambulance Division – Air and Ground
- Industrial and Remote Medical Division
- Community Paramedicine Division
- Training and Clinical Education Division
- Medical and Pharmaceutical Supply Division

EAMS & AMS stands out from our competition. Currently, AMS is the medical services provider for several programs in the NWT: the Air Ambulance program known as ACCESS Air Ambulance, the Inuvik Ground Ambulance Service,

and Paramedic in Community program. In Nunavut, EAMS & AMS provides the Paramedics in Community servicing all communities and at the Qikiqtani General Hospital in Iqaluit NU as well as the development and delivery of the Nunavut Nursing Orientation Clinical Training Program.

EAMS & AMS provides so much more than just medical support – Risk Mitigation is a key component of our total solution - it's the significant liability reduction that our medical solutions provide for our clients, since we provide a complete package including all critical supporting infrastructure, medical director, medical protocols, ongoing quality assurance and continuing education and \$20,000,000 medico-legal professional liability insurance and total medical operational support. These are keys factors for consideration.
